The elegant new
installation system

edge•mounts

best for displaying artwork, photography and valuable graphics

edgemounts minimalist design means they don't compete with your graphics for visual attention and give you the option to install back panels to create coloured borders to enhance the visual impact.

DISPLAY OPTIONS

without borders

Image printed on paper and displayed between a back panel and a clear acrylic front panel

Image printed on the front of a panel

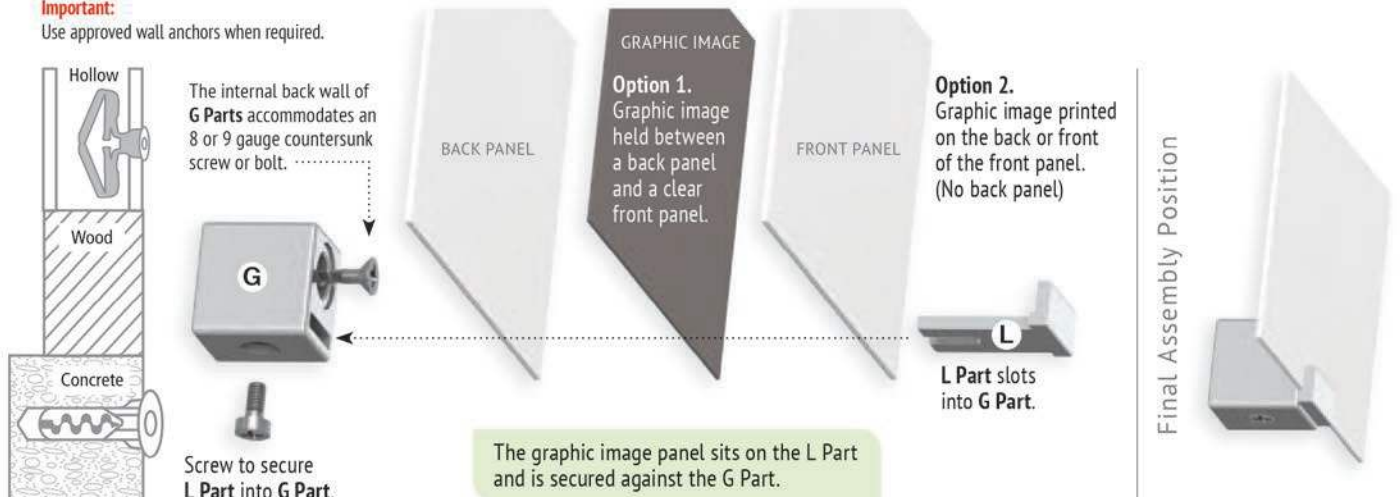

Image printed on the back of a clear acrylic panel

INSTALLATION

without border

Important:

Use approved wall anchors when required.
